## Jobmeal Finland

Hereby offset for greenhouse gas emissions corresponding to **913 tonnes CO<sub>2</sub>e**, from the sales of coffee in 2020.

The offsetting occurs in the project CommuniTree Carbon Project in Nicaragua and is run in collaboration with small-scale farmers that plant trees in agroforestry systems. The project is certified in accordance with the Plan Vivo standard and delivers social and ecological co-benefits for participating communities and small-scale famers.

Certificate nr: ZM 201973
